About Telligent

Our Mission

Telligent's mission is to transform and evolve how business gets done, capturing and sharing critical information for collaboration and creating meaningful connections between people regardless of where they are around the globe.

What Sets Us Apart?

We know that your success is what matters.

Measurability of success is critical. With us, you can understand and evolve your investment.

We're a platform. Integrate and extend rather than just install and maintain.

User experience is key to adoption. Only with Telligent can you customize everything your audience sees.

We have a long history of firsts and we continue to blaze trails.

We use our own software, both inside and out. Join our community.
